### SR178/Fairfax Road Interchange Project to open in phases

#### Westbound traffic to move onto new freeway July 16, 2009

The Thomas Roads Improvement Program announces the State Route (SR) 178/Fairfax Road Interchange will open in three phases in the coming weeks. The phased opening allows for the continuous flow of traffic through the work area while final work (such as removing pavement installed for construction detours) is completed on the interchange.

The first phase is expected to begin Thursday, July 16, 2009 when Security Paving Company (SPC) moves westbound SR 178 traffic onto the new freeway.

Following this traffic change, westbound freeway traffic will not be able to exit at Fairfax Road. Access from Fairfax Road onto westbound SR 178 will also be closed. Motorists traveling to points south of the construction zone should exit SR 178 at either SR 184 (Kern Canyon Road) or Oswell Street. (Please see attached detour map.)

Please allow extra travel time and follow detour signs while traveling through the construction zone.

###

Additional Commuter Alerts will be announced as the phased opening continues.
