Paving operations continue on State Route 178 at Fairfax Road Interchange

Security Paving Company (SPC) will be paving Fairfax Road south of the new SR 178 bridge on Tuesday, July 28, 2009. Paving operations are expected to continue for the remainder of the week on the eastbound freeway lanes and ramps.

These paving operations may require some flagging of traffic, and delays of up to five minutes may occur for eastbound SR 178 traffic. Intermittent single lane closures on westbound SR 178 may also occur Monday through Friday, between the hours of 7 a.m. and 5 p.m. Motorists are advised to avoid the area and to use alternate routes if possible.

Motorists are reminded that westbound traffic may not exit at Fairfax Road and must exit at either Morning Drive or Oswell Street. Also, Fairfax Road south of the freeway is accessible to/from eastbound SR 178 traffic only. Motorists wishing to travel westbound are advised to use alternate routes and access the freeway at Oswell Street.

Please obey all traffic signs and allow extra time when traveling through the construction zone.
