## Traffic Advisory

### Coffee Road at Brimhall Road Intersection

Motorists who travel through the Coffee Road/Brimhall Road intersection are advised to allow for extra time in their daily commutes or to avoid this intersection, from April 6 to 21, 2010. The installation of a new sewer line casing, in conjunction with the Westside Parkway construction, will require lane reductions at this intersection.

All traffic movements through this intersection will be maintained, but with lane restrictions. The major disruption will be for eastbound Brimhall Road traffic continuing east and/or turning left onto Coffee Road. The dedicated dual left-turn lanes and the separate through-lane will be combined into only one left/through-lane. The traffic signal will be adjusted and the pavement will be re-stripped to accommodate this temporary lane configuration.

The contractor plans to begin re-stripping traffic lanes on Tuesday, April 6, after 8:15 a.m. Traffic passing through this area should expect delays. We apologize for any inconvenience this work may cause the traveling public.

Security Paving Company is also beginning work on the abutments for the Westside Parkway bridge over Coffee Road. This work will be off the roadway, but motorists should remain alert to construction equipment and personnel that may be entering or leaving the work area.

For additional information on the Westside Parkway project, please visit our website at [www.BakersfieldFreeways.us](http://www.BakersfieldFreeways.us).
