## Traffic Advisory

### Work to Resume at Truxtun Avenue/ Mohawk Street Intersection

Motorists are advised that work on the Truxtun Avenue/Mohawk Street intersection expansion is expected to resume on Tuesday, September 7, 2010. Construction at the intersection was interrupted in mid-August by a walkout of Operating Engineers Local 12. With the resumption of work, motorists should stay alert to changing road conditions and to anticipate possible lane closures while traveling through the area.

Short-term lane closures are expected to occur on and off for the next two to three months as different crews perform work in various areas of the intersection. When lane closures are necessary, they will typically occur between 9 a.m. and 4 p.m.

Since lane closures may cause traffic delays, motorists are advised to avoid the area and use an alternate route if possible. If traveling through the area is unavoidable, please allow for additional travel time.

The Thomas Roads Improvement Program will continue to update the public to changes in traffic conditions as the project progresses, and apologizes for any inconvenience this work causes the traveling public.

For additional information on the Westside Parkway project, please visit our website at [www.BakersfieldFreeways.us](http://www.BakersfieldFreeways.us).
